Waseem Khalid Sabra

Senior Full Stack .NET Engineer

Palestine | 0597328347 | waseemsabra2@gmail.com
linkedin.com/in/waseemkh19

Professional Summary

C#/.NET engineer with 7+ years of experience building and supporting business applications, REST APIs and backend services. Work spans utility billing and metering, HR, inventory and recruitment systems. Hands-on experience with .NET Framework, ASP.NET Core, Angular, Oracle, SQL Server and PostgreSQL, with a focus on application architecture, database performance and production troubleshooting. Also lead implementation reviews and train backend developers.

Professional Experience

IT Team Lead & Senior Full Stack .NET Engineer

TCee Technical Company for Electricity | Palestine | Oct 2025 - Present

- Build and maintain .NET services for electricity and water utility systems, including APIs, database workflows and external metering integrations.
- Develop prepaid metering and automated-billing workflows for charging, balances, meter operations, scheduled workers, retries and status synchronization.
- Investigate data-access bottlenecks, review SQL Server execution plans and tune queries while preserving established financial and operational rules.
- Lead production troubleshooting across applications, databases and background services; review implementation approaches with developers and stakeholders.

Full Stack Developer & Technical Lead

Fratello / IDEAL Software Design | Remote | Mar 2023 - Oct 2025

- Delivered backend services, REST APIs and databases for Islamic, recruitment, e-commerce and restaurant applications using .NET, Entity Framework and Angular.
- Designed the architecture of an Islamic platform and guided developers on separation of concerns, dependency injection lifetimes and DbContext usage.
- Used PostgreSQL in a production Applicant Tracking System, covering application data access, queries and troubleshooting.
- Joined Fratello in March 2023; continued with the team under IDEAL after the company split, through October 2025.
- Designed and delivered a six-month backend training program covering C#, OOP, SOLID, MVC, Web API, Entity Framework, LINQ, authentication and authorization.

Professional Experience Continued

Full Stack Developer

Newsoft | Ramallah, Palestine | Sep 2019 - Mar 2023

- Built and maintained enterprise and government applications across HR, inventory, portals, vehicle management, payroll and university systems using ASP.NET Core Web API, Angular and SQL Server.
- Developed REST APIs and database workflows; analyzed execution plans and optimized SQL queries for HR and inventory systems.
- Maintained legacy ASP.NET MVC and .NET Framework applications for the Ministry of Higher Education, preserving existing workflows during changes.
- Applied SonarQube and coding standards, contributing to a 30% reduction in bugs over a 12-month period.

Full Stack Developer

Blue | Palestine | Apr 2019 - Sep 2019

- Developed web application features using PHP, Phalcon, MySQL, HTML, CSS, Bootstrap and jQuery.

Technical Skills

Backend: C#, .NET Framework, .NET Core through .NET 9, ASP.NET Core, ASP.NET MVC, Web API, Entity Framework, LINQ, Razor, dependency injection.

Databases: SQL Server, Oracle, PostgreSQL, MySQL; relational modeling, execution plans, query tuning, indexing and transactions.

Architecture: OOP, SOLID, design patterns, layered and modular architecture, REST integrations, background workers, authentication and authorization.

Frontend: Angular, TypeScript, JavaScript, HTML, CSS, Bootstrap, jQuery, Blazor.

Delivery: Git, IIS, Windows Server, Docker, SonarQube, Visual Studio, SSMS; Azure DevOps repository and deployment exposure, AWS.

Independent Product Development

Waseel | Full Stack Developer

Business-management SaaS for order intermediaries and online sellers: customers, orders, grouped orders, payments, balances, sorting and reports. Built with ASP.NET Core Razor Pages, EF Core and MySQL, with multi-tenant access and role-based permissions.

Project overview: waseemkh.github.io/#waseel

Technical Training

Technical Trainer | XcelCode | Palestine

Deliver practical training in .NET backend development, databases, APIs, debugging and maintainable coding practices.

Education

Bachelor of Computer Science

Palestine Technical University Kadoorie | Tulkarem, Palestine | 2019
